Recommendation for Eileen Petzold-Bradley

In my organizational consulting practice, I have had the pleasure of working with Eileen on several occasions and have always been impressed with her professional demeanor and her high quality work. She has assisted me in a full week workshop in Dispute Resolution for Public Managers with active duty military officers and State Department Civilians, has authored a small piece in a well-known book on *Communication and Conflict Resolution Skills, Third Edition* (I am primary author), has submitted workshop proposals with me for professional conferences (Association for Conflict Resolution) and Lifelong Learning Institutes in Jupiter, Florida, and has helped me with several other projects. In each of these instances, Eileen has exceeded my expectations and I am constantly on the lookout for projects in which I can work with her again.

Of course, I also have worked with Eileen as a student in my classes at Nova Southeastern University (NSU). Her performance in my doctoral level organizational classes has always been outstanding. In addition to doing superb work, Eileen adds her own significant international experience and expertise to the class, enriching everyone's learning.

I have high expectations for her dissertation and subsequent career. I think the ABA Dispute Resolution Fellowship would add tremendous value to her career preparation and that you would be very pleased with her attitude, friendly nature, professionalism and dedication to excellence.

Sincerely,

Neil Katz, Ph.D.

President,

Neil Katz and Associates

Professor, Nova Southeastern University Dept. of Conflict Resolution Studies

Professor Emeritus, Maxwell School, Syracuse University
